Milestones

2015

Turmoil in the market gave rise to my founding Printodome by creating a website for our brand and reaching out to provide the best printing solution to all the unmet printing needs.

2017

GeM, the Government e-market, played a pivotal role in making us reach our customers with the reliability we had in our products. Since then, we have achieved the milestone of completing 3500 on our Gem panel itself.

2021

With the robust market for compatible cartridges, we were able to establish our production unit quite successfully by the year 2021.

SUSTAINBLE PACKAGING

Product Process

- Acquisition of Raw Material: Premium-grade raw materials are procured from a blend of domestic and foreign vendors and are meticulously and methodically stockpiled in the warehouse under tight security measures.
- Assembling of Products: Our ultimate product is the result of assembling individual components that are manufactured by our team. Our personnel are trained to adhere to globally recognized procedures for assembly. Our adept workforce ensures that each batch undergoes extensive trials to examine its functionality before it is dispatched. This meticulous process guarantees PrintoDome's assurance of the highest quality standards.
- Packaging: At PrintoDome, we are committed to safe and sustainable product packaging practices. We take pride in using cardboard and paper for packaging, as it helps us minimize our carbon footprint and positively contribute towards a healthier, greener planet for generations to come. To ensure the safe delivery of our products, we carefully place them in black polybags that are expertly sealed to protect against damage caused by direct sunlight. We aim to manage and keep our carbon footprint as low as possible, and we take all measures necessary to achieve this. We believe that being a socially responsible company is our duty, and we are dedicated to fulfilling it through our packaging practices.
- Warehousing: Our management system guarantees that we always have a fresh supply of PrintoDome products available to meet the growing demand.
- Transportation: We partner with the most efficient and dependable service to ensure your product is delivered to your doorstep promptly. With Printodomes services, you have access to timely delivery of goods and the ability to track your shipment. No need to wait longer than necessary for your product to arrive.
